OTHER VENTILATION BLADE

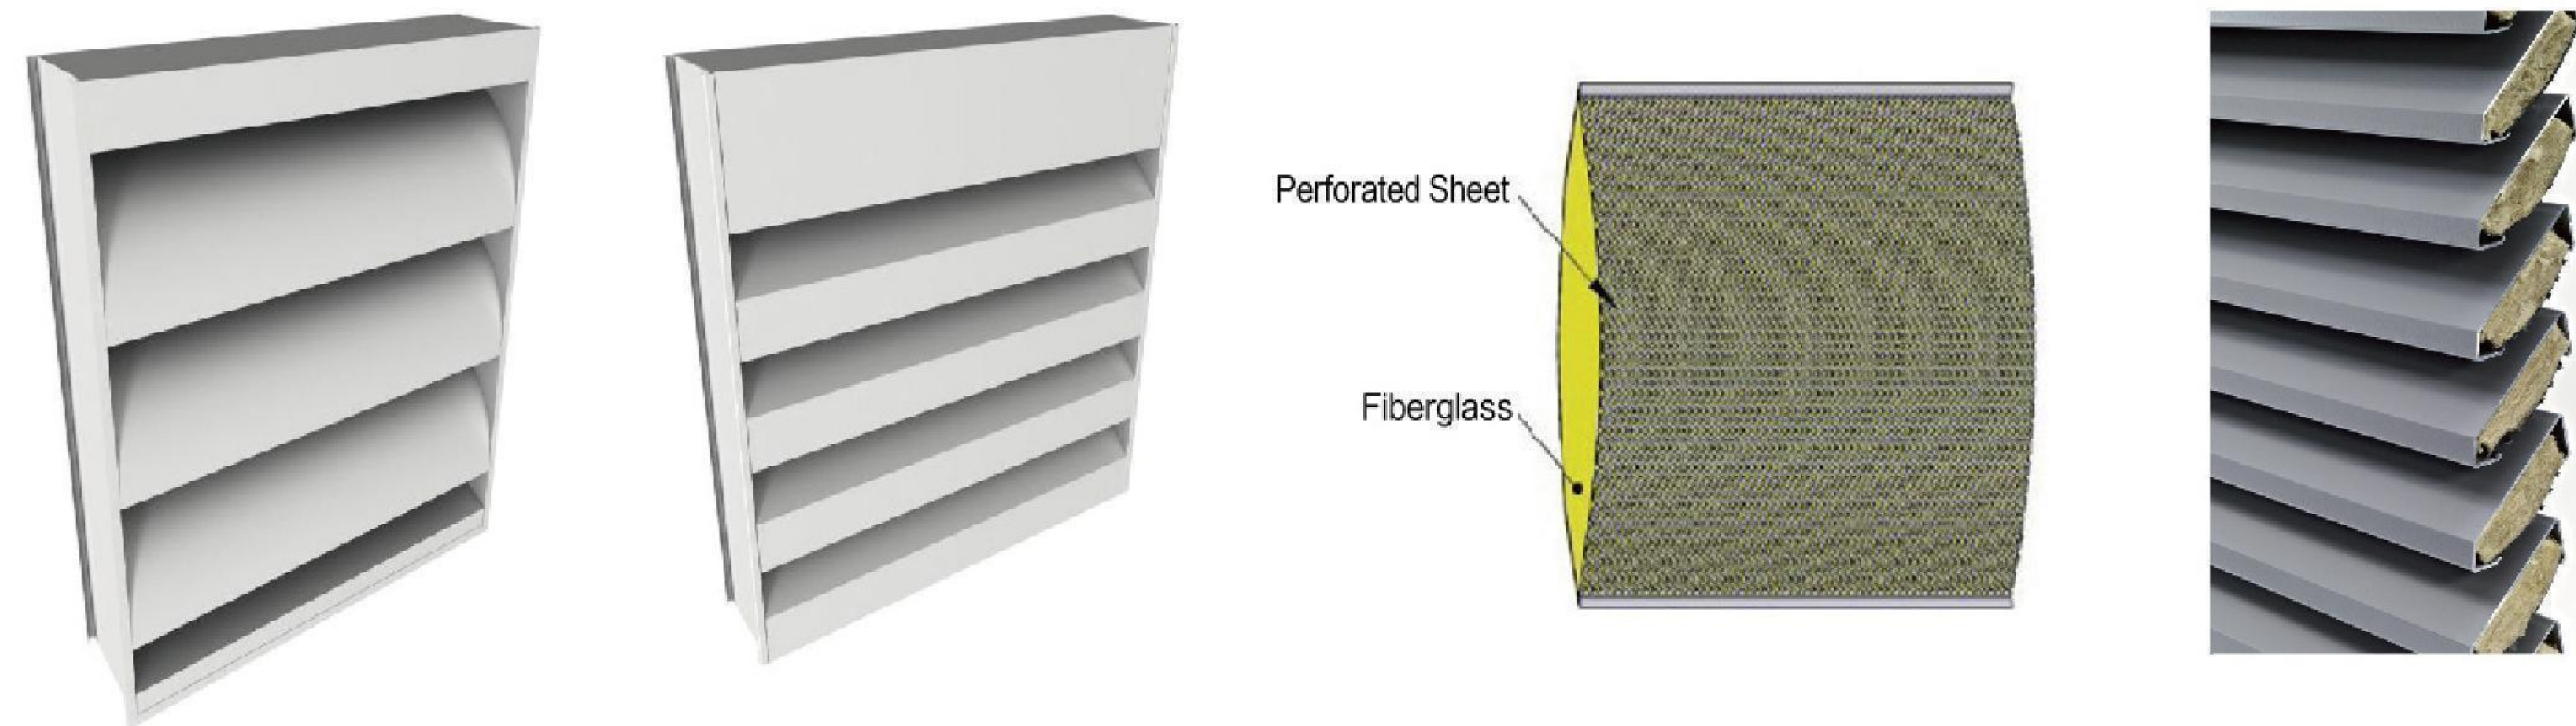

## COMMERCIAL SOLUTION

Apro provide professional solutions to our customers. Custom designed to suit any size or shape.

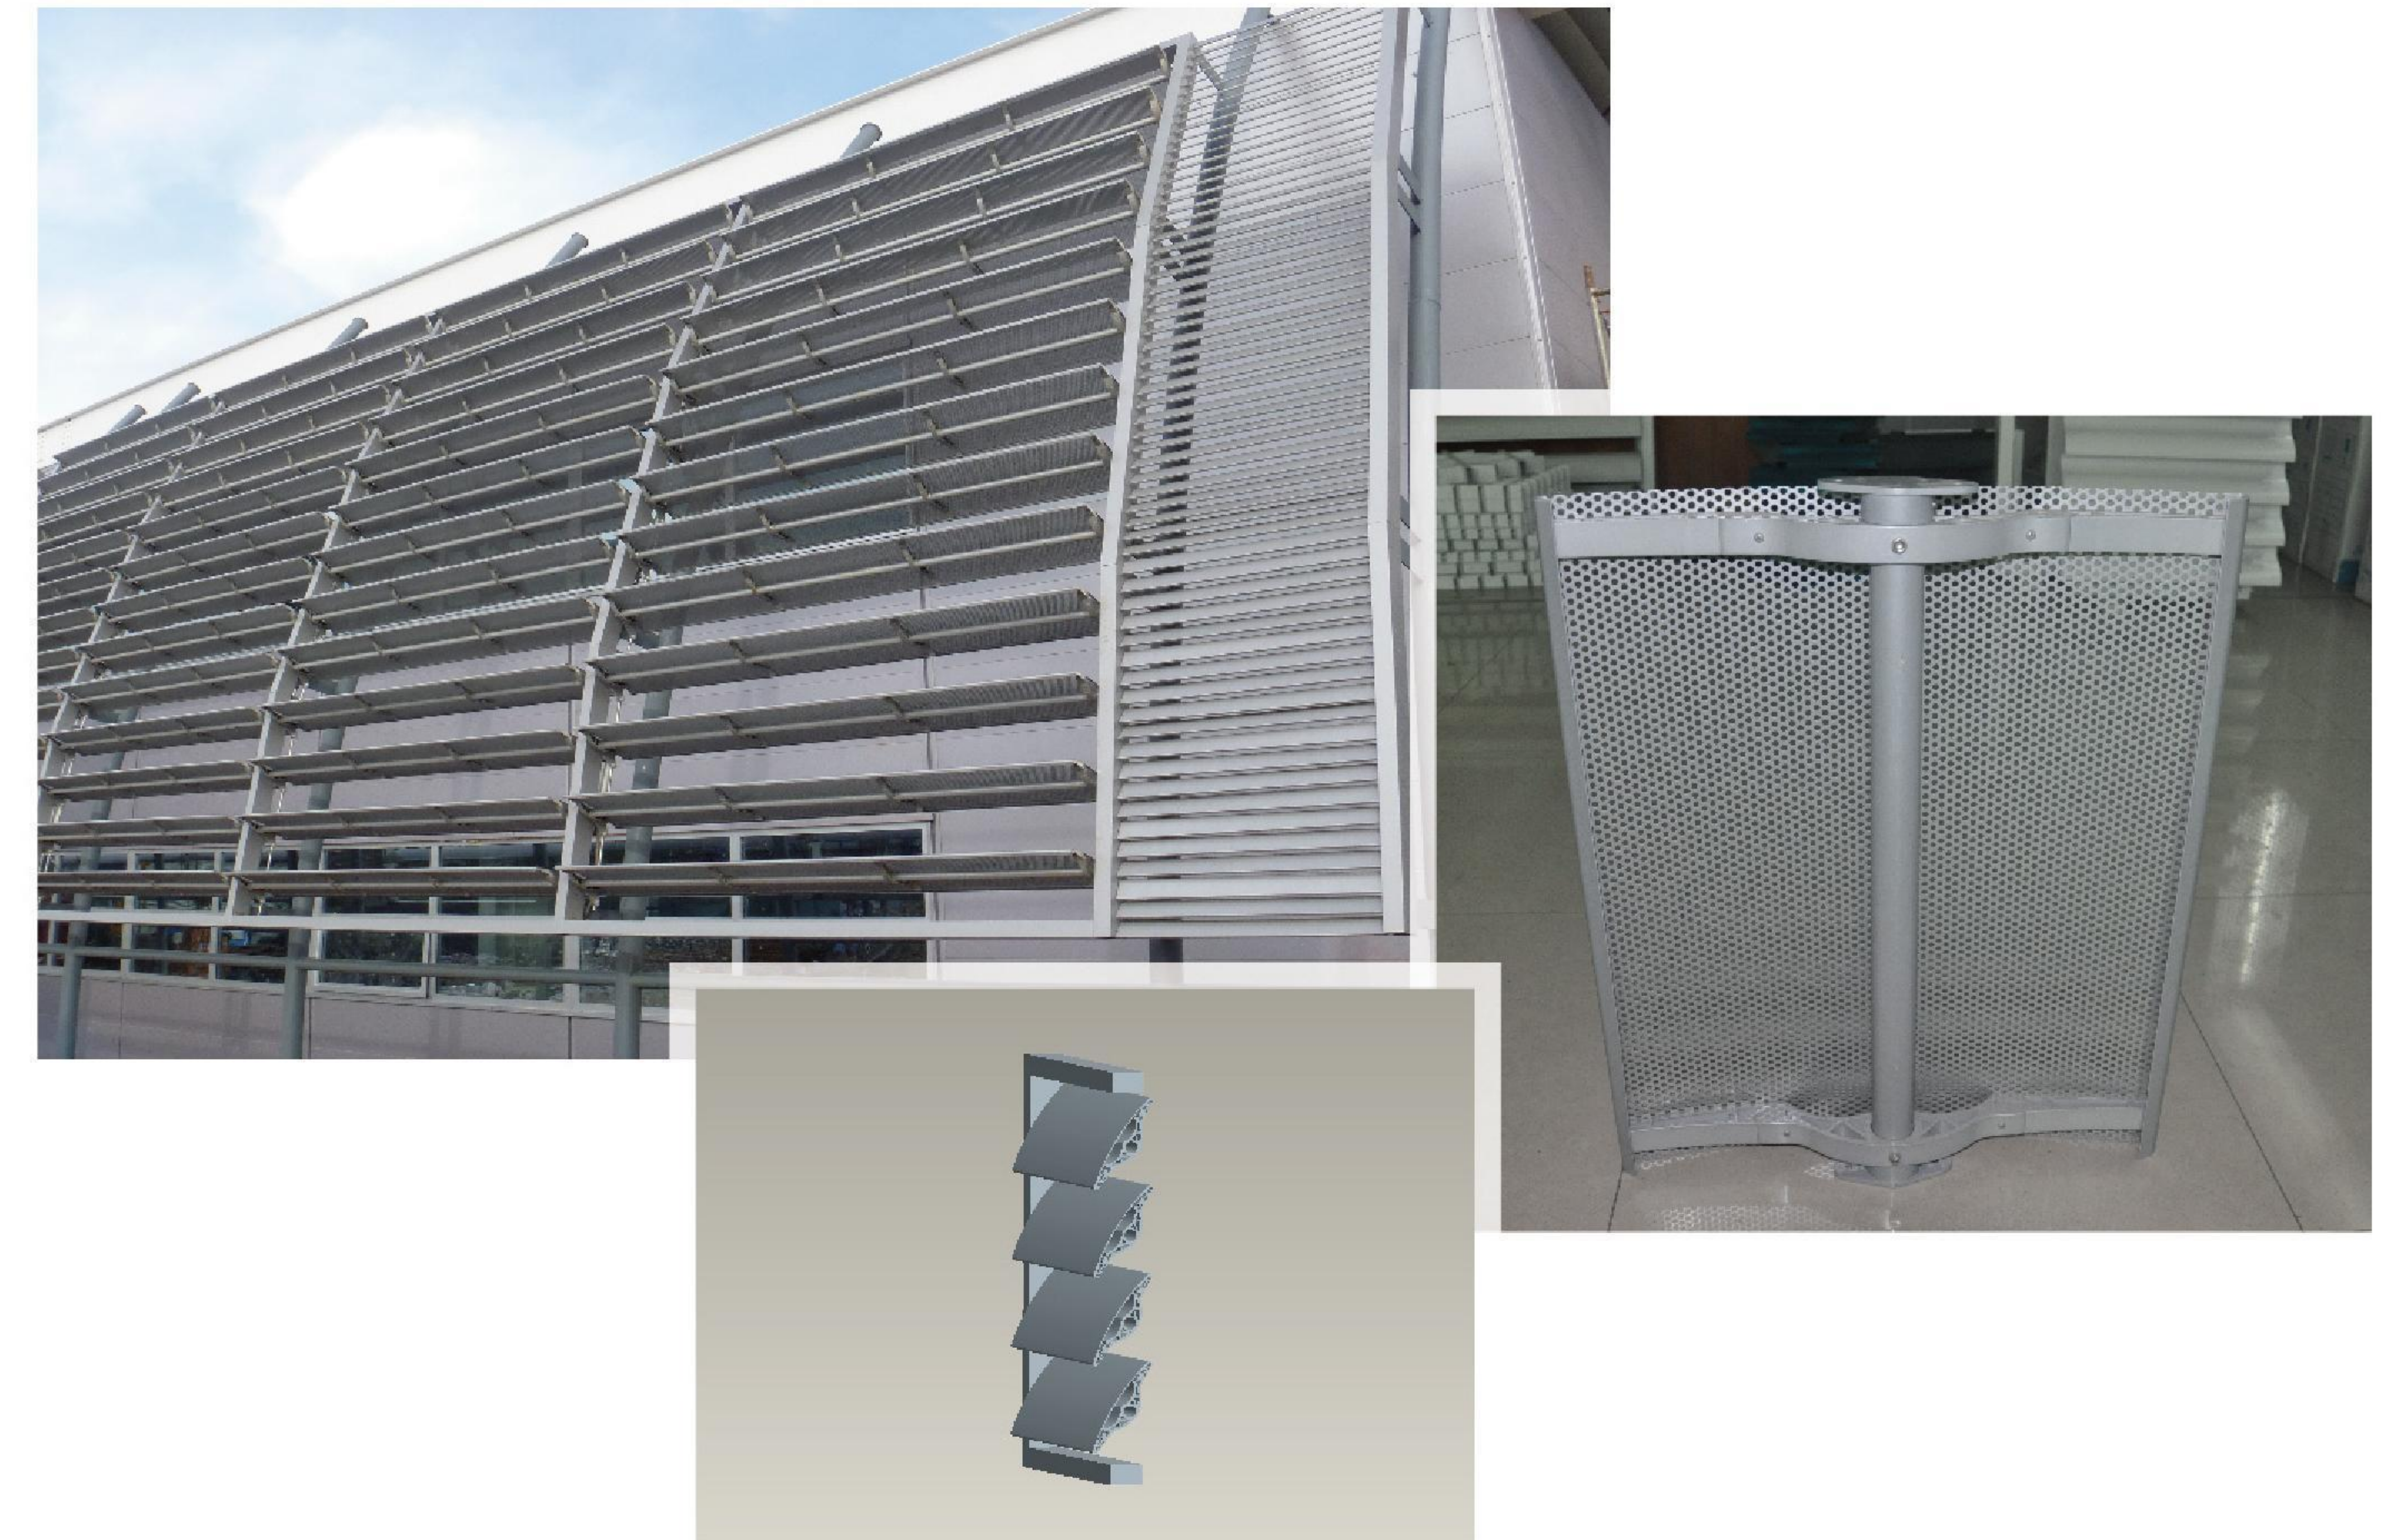

### SOUND ABSORBING LOUVER

Apro sound absorbing louver can effectively solve environmental noise problems. Noise is absorbed when the sounds are directed to specific zones. With hollow blade design, the surface of the blade is covered with sound-absorbing material and there is special material in the blade to absorb sound. Thus, it is suitable for places for strict requirements on noise pollution.

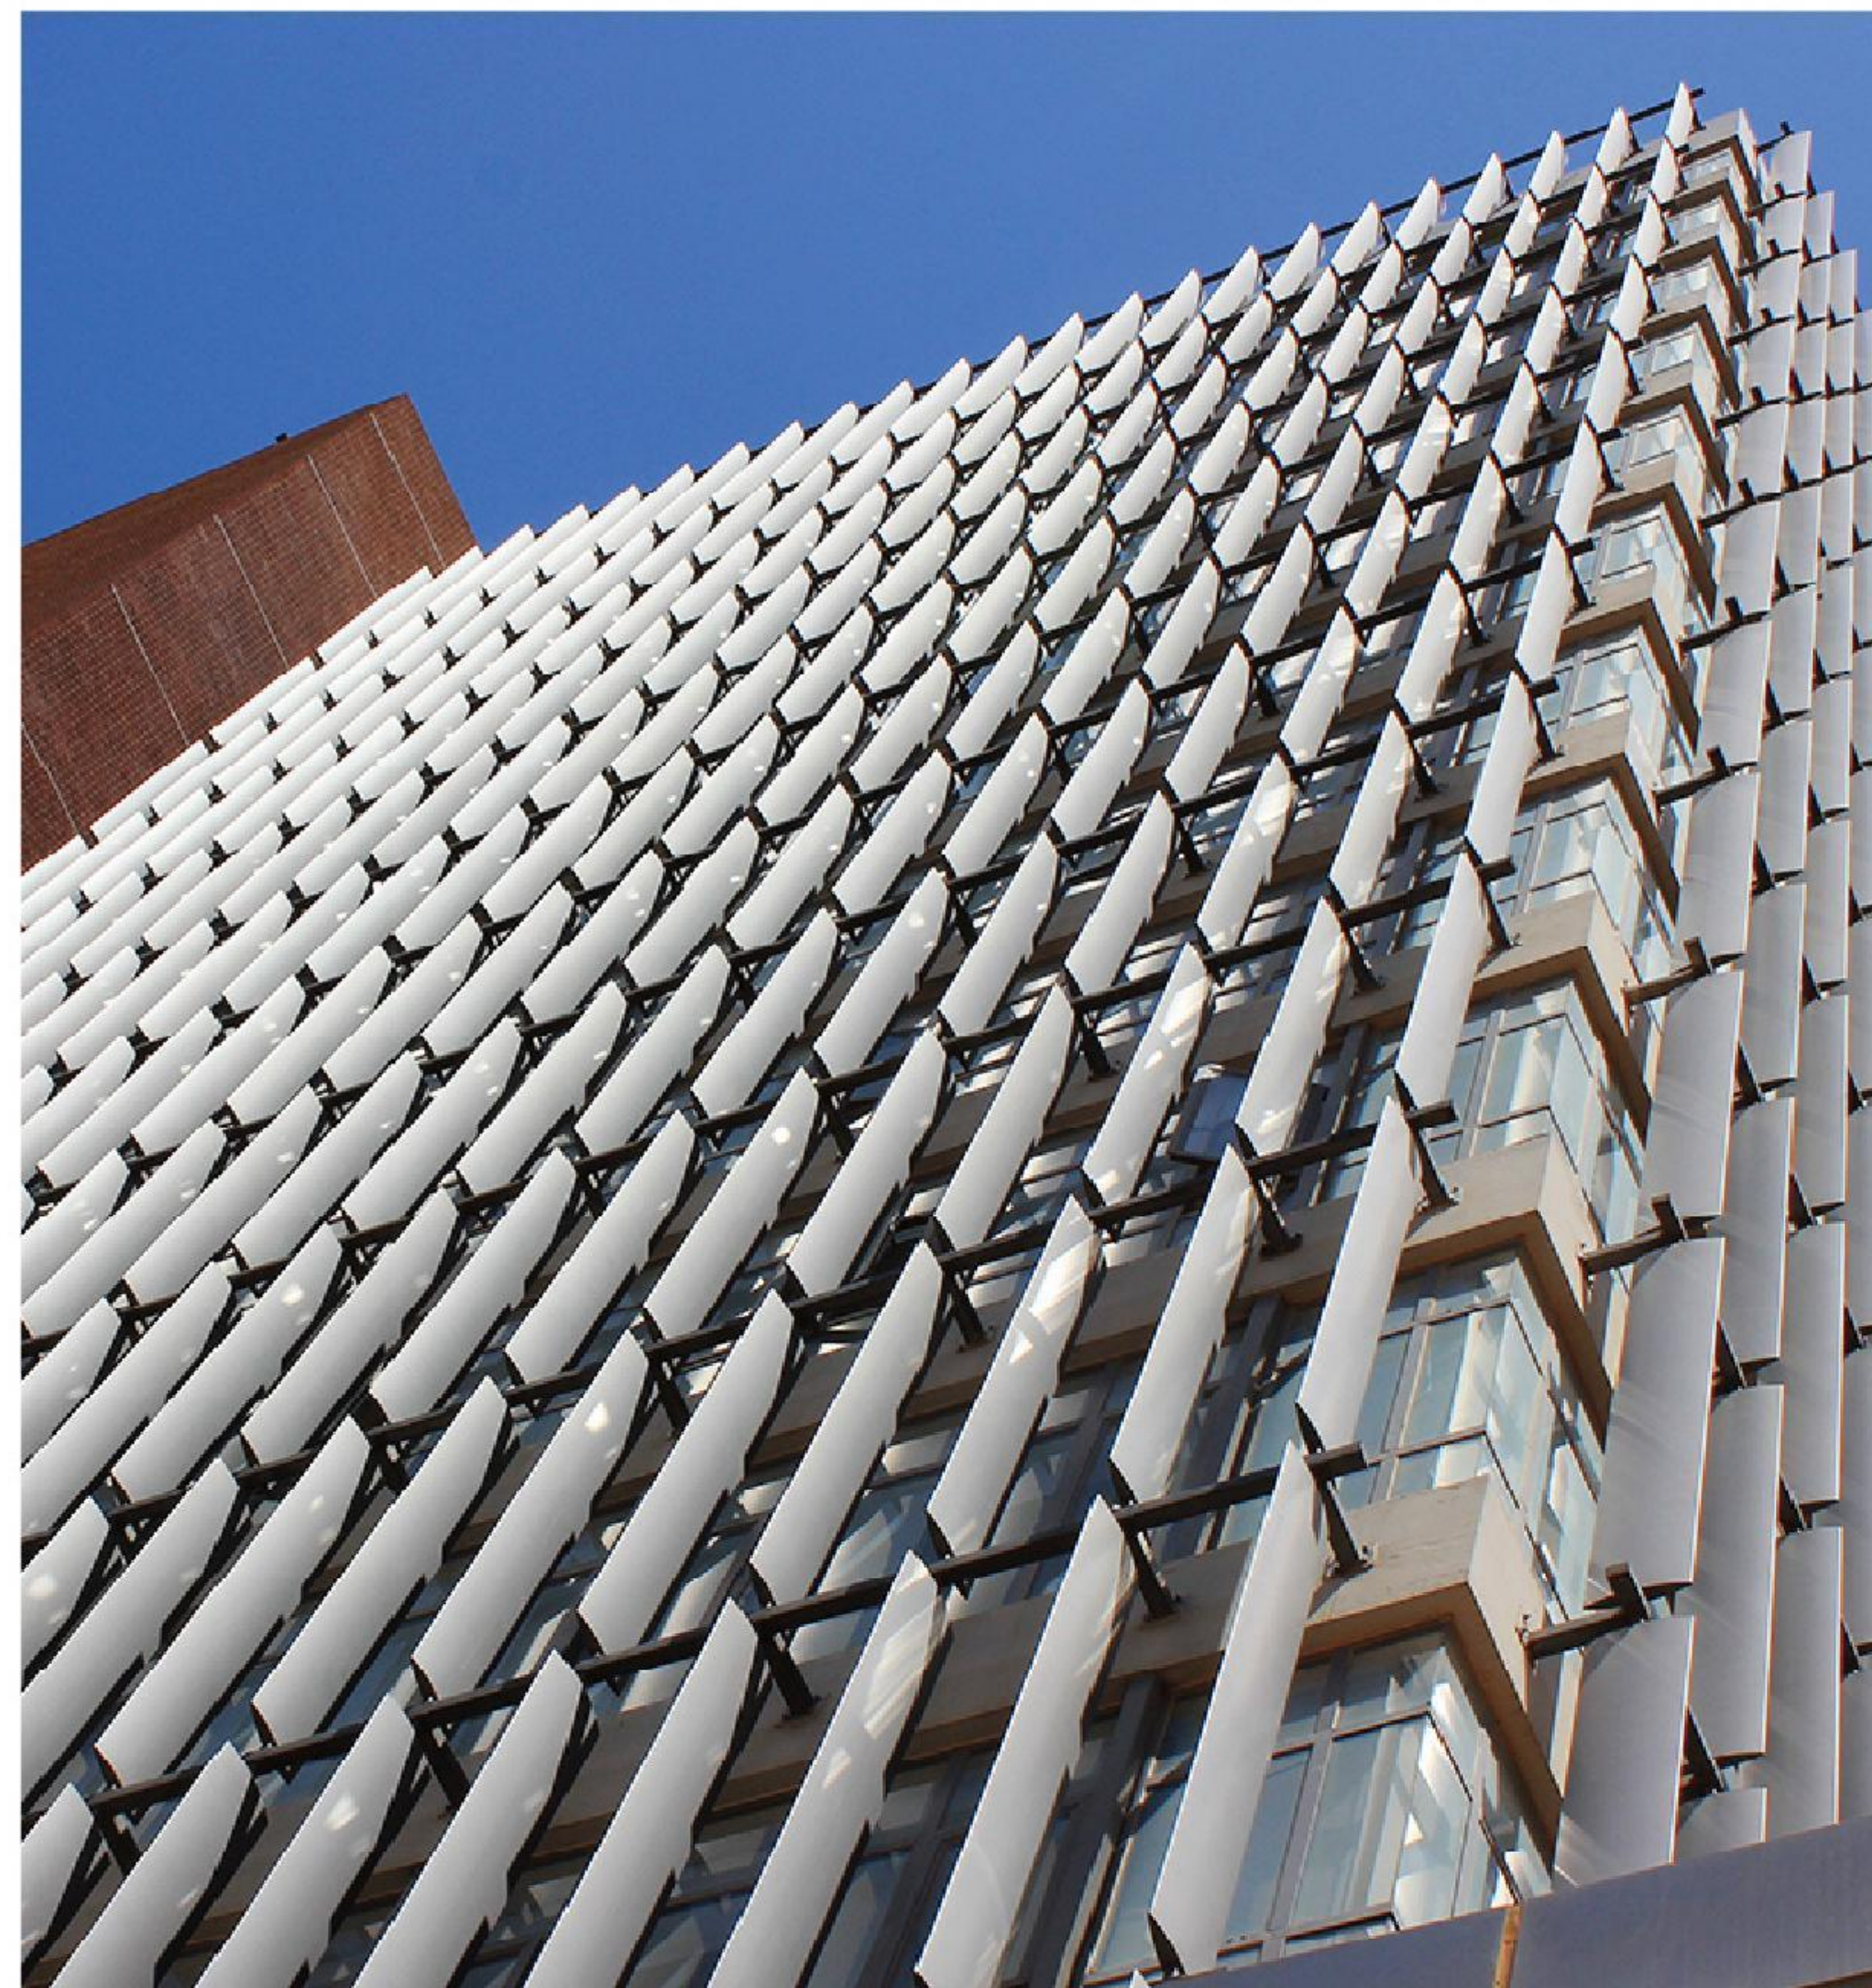

### ARC BLADE

Arch Blade design with motorize controlled, It would minimize direct sunlight to save approximately 30% air conditional consumption if install various inside and outside the curtain wall.

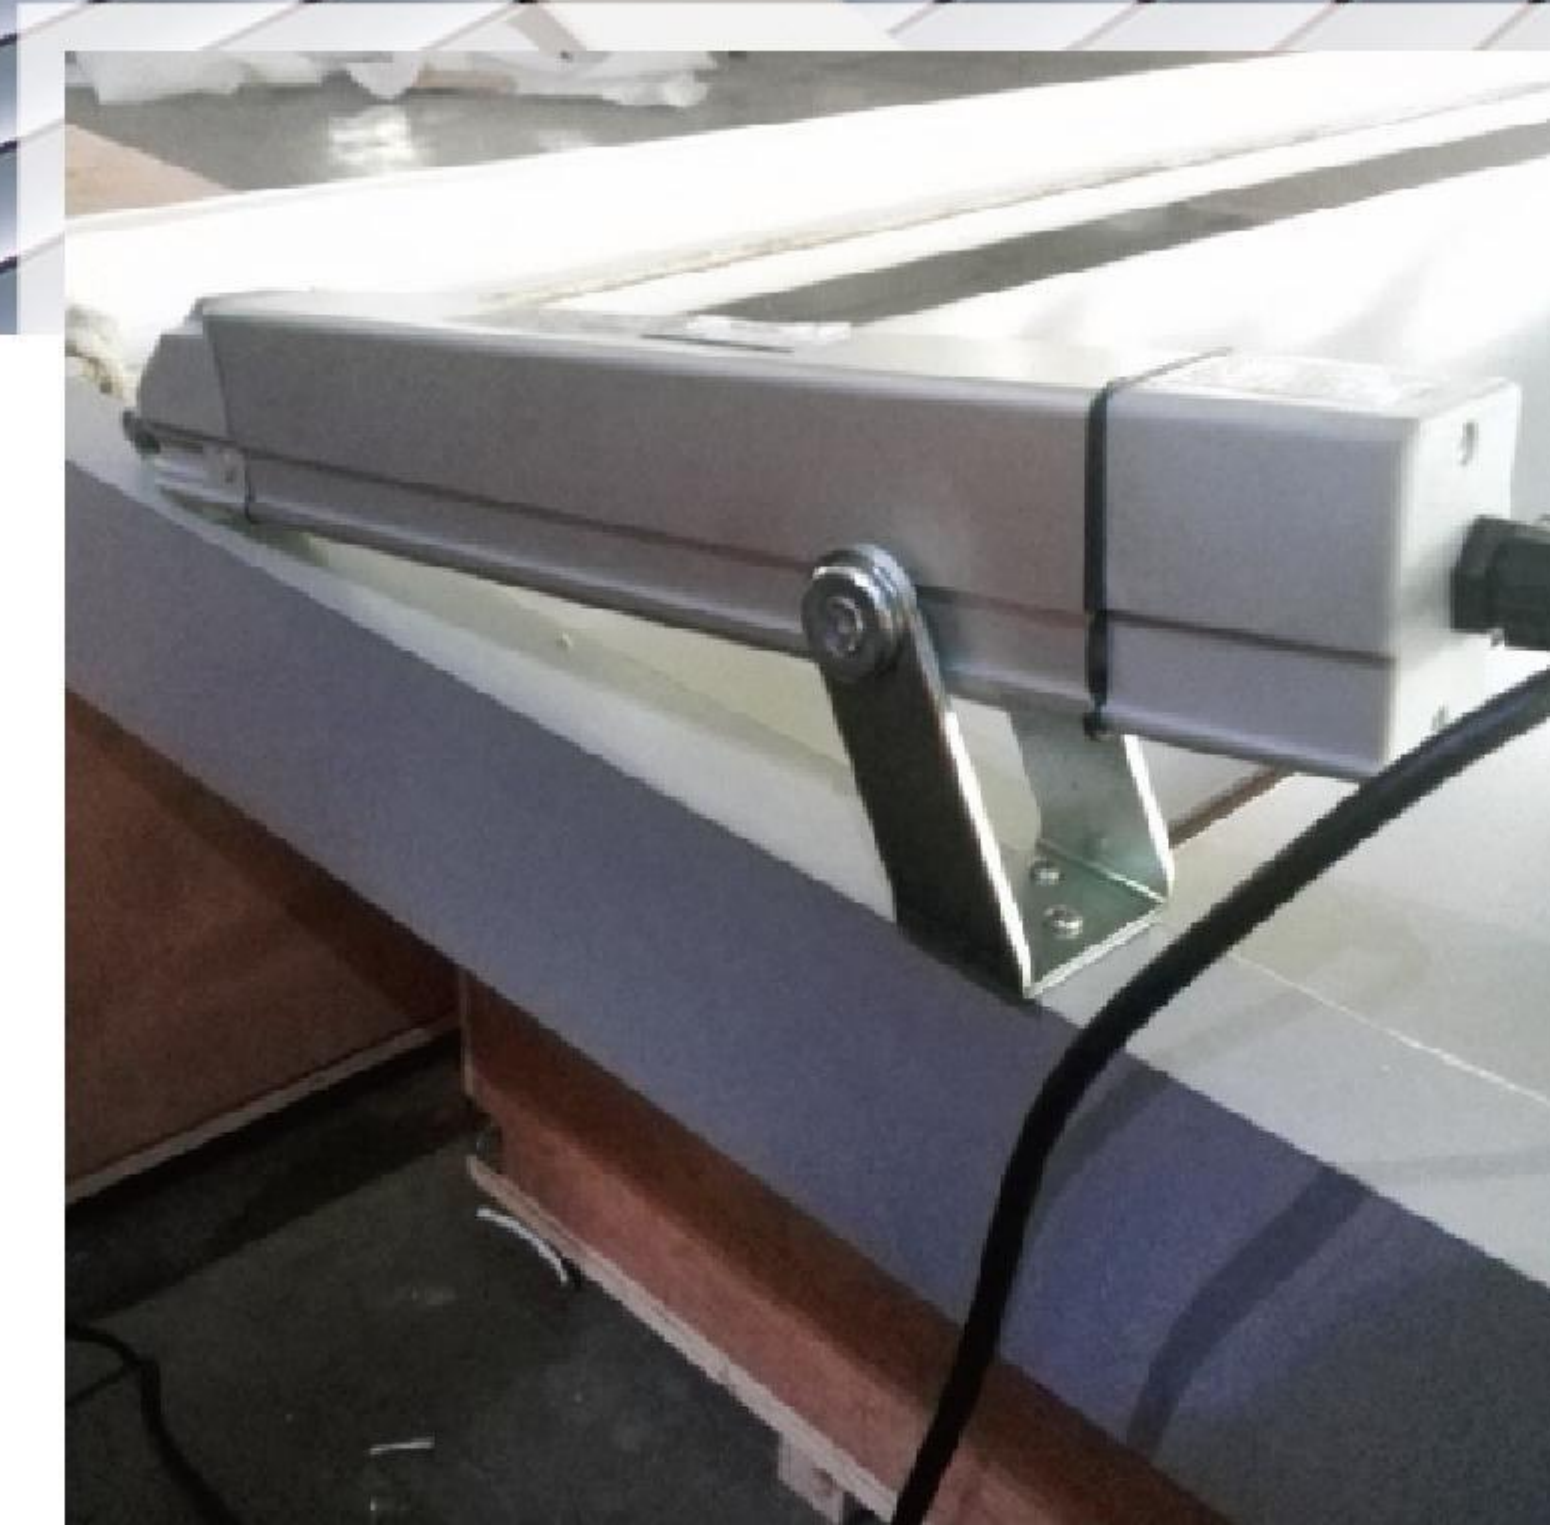

## AIRFOIL BLADE

The fixed blade or motorize blade could protect from weather extremes. Not only does it protect you from the weather conditions, but also acts as a strong barrier against intruders. It is a real design feature in your commercial building increasing value, whilst being low maintenance.

Fixed Blade Design

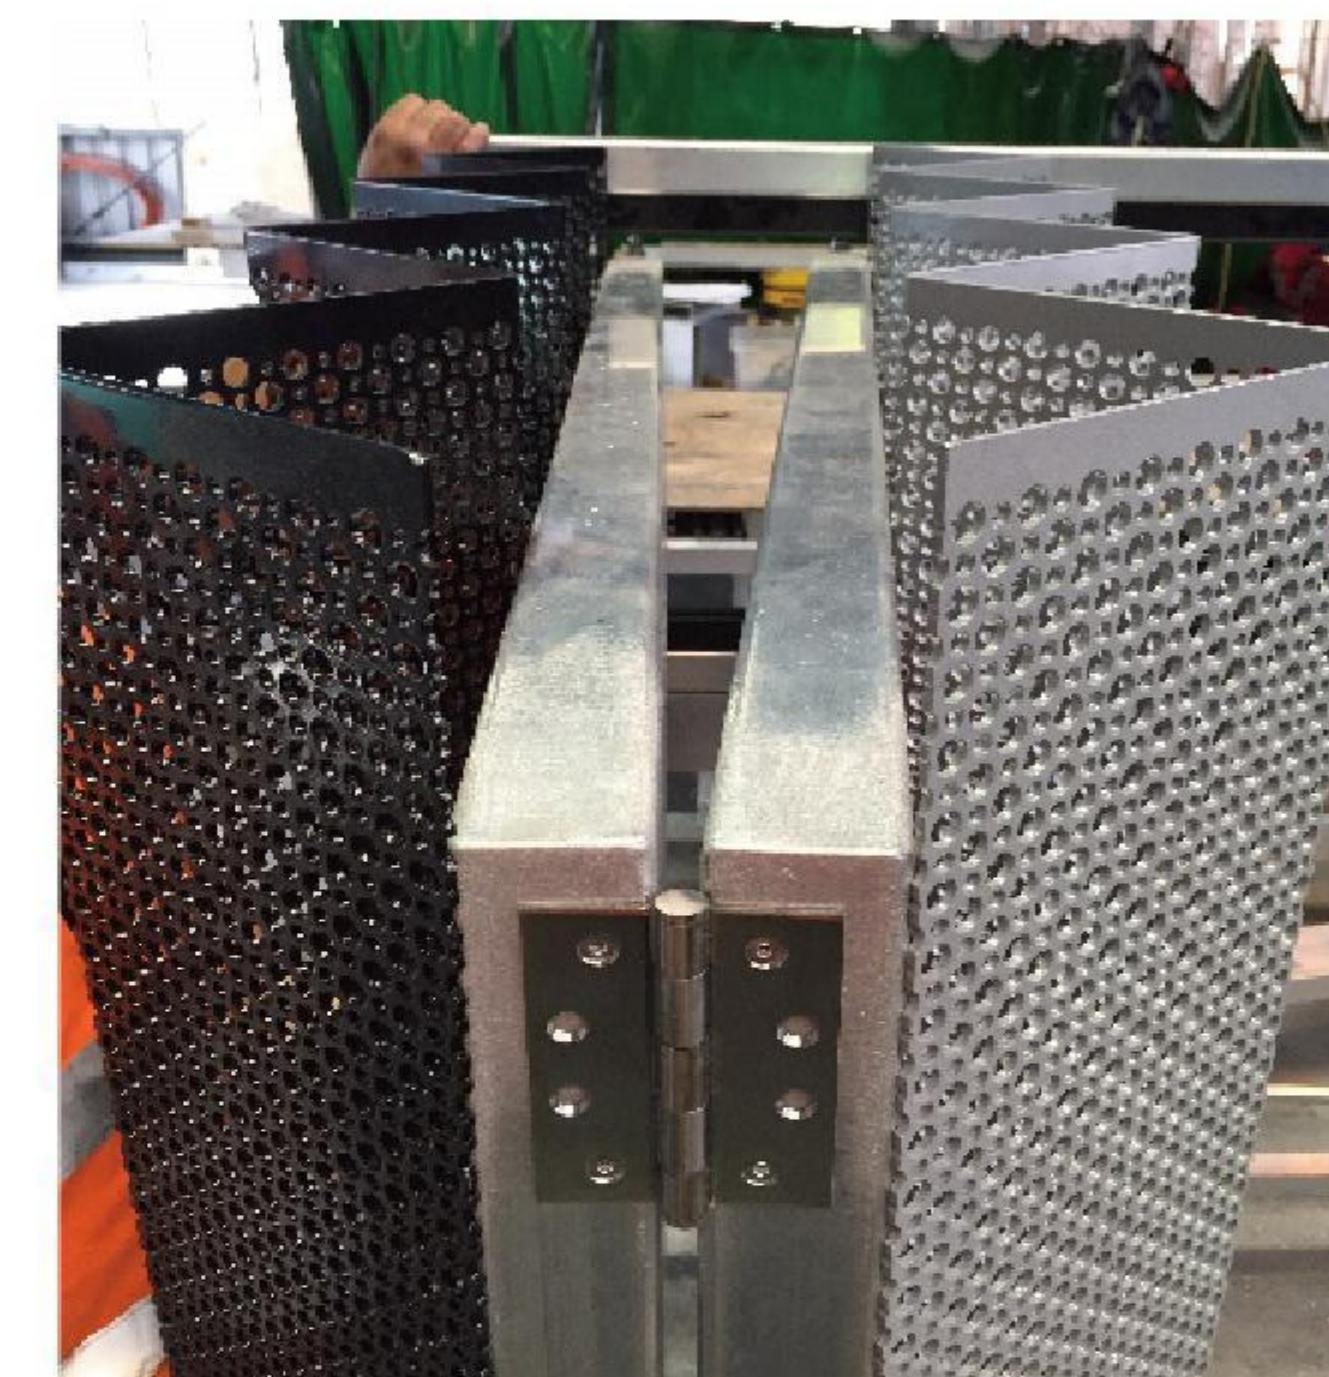

Motorize Movable Blade Design

## OTHERS CUSTOMIZE LOUVER FACADE PROJECTS

We provide special solutions in accordance with the wishes of the architect. Diverse color shades, different surface coatings and forms are available. Sun Shade Louvers are popular due to their ease of use, and them being long-lasting and functional. Aluminium sun shade louvers are light, easily installed, fireproof and moisture-proof.
